

# CHIEDU DAVID CHIBUNDO

Software Engineer | Lagos, Nigeria

[chibundochiedu@gmail.com](mailto:chibundochiedu@gmail.com) | +234 702 631 9092 | [Github](#) | [chiedudev](#)

## PROFESSIONAL SUMMARY

---

Backend engineer focused on shipping reliable production systems, from API design and data modeling to cloud deployment and operational readiness.

## SKILLS

---

Backend: Java, Spring Boot, Node.js, Express

Databases: PostgreSQL, MongoDB, Supabase

Cloud: Docker, Render, AWS S3

Frontend: React, Tailwind CSS

Soft Skills: Effective communication, Collaboration, Customer-centric thinking

## EXPERIENCE

---

*Software Engineer,* Bundo Tech Inc. · Remote Mar 2024 — Present

- Designed and shipped production APIs, data workflows, and deployment pipelines for a customer-facing product used in live environments.
- Modeled relational data in PostgreSQL and implemented service boundaries that support marketplace operations at scale.

*Backend Engineer* NDF — Remote 2022 Dec — Oct 2023

- Implemented and maintained key backend modules under senior developer guidance.
- Developed new RESTful API endpoints for the Wealth Service Marketplace.
- Containerized applications using Docker for seamless CI/CD deployment.

## PROJECTS

---

**[Bundo](#)** — Marketplace for booking trusted local service providers.

Built and launched Bundo, a live marketplace platform connecting customers with trusted local service providers. Designed and implemented the complete backend using Node.js and PostgreSQL, including REST APIs, secure authentication, booking workflows, payment integration, AWS S3 file storage, and Dockerized deployment on Render.

**Pizza Order Web Application** [GitHub Repository](#)

Built a full-stack restaurant ordering application with secure authentication, REST APIs, real-time order processing, menu management, and an admin dashboard for inventory control and order tracking.

**Real-Time Chat App with File Sharing** [GitHub Repository](#)

Built a real-time messaging platform with Express.js and Socket.IO, implementing dynamic chat rooms, JWT authentication, persistent messaging, and AWS S3 integration for secure file uploads and sharing.

## Education

---

**B.A History**

Aug 2021

University of Benin — Benin City, Nigeria
